

SAFEX®- NEBELSCHALLDÄMPFER Fog Silencer NONPHON

Technische Daten - *Technical data*
(Stand 5.99)

Primarily designed as a fog silencer the SAFEX-NONPHON is in fact a haze maker and a fog distributor too.

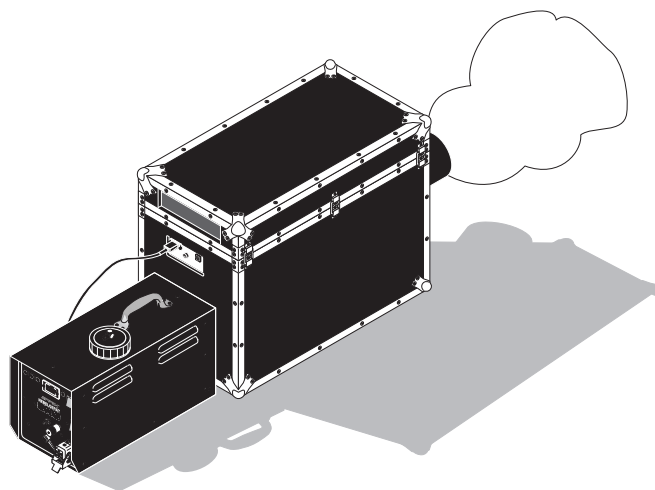

Powerfull fog machines produces noise due to the indispensable outlet nozzle which is necessary for building the fog.

The SAFEX-NONPHON FOG SILENCER reduces the hissing sound of fog generators to a almost silent whispering, with SAFEX machines and the additional haze reducing hose to practical silence.

Although the silencer is designed for the SAFEX- SNG machine it can be used for all SAFEX-Fog generators as well as for other machines, if the outlet height is adjusted.

The silencer contains a fan which enables it to distribute fog through bigger hoses ore pipes over a long distance as well producing a silent and fast haze with any standard fog machine adjusted to small output and using a long lasting fog.

Available: beginning 2000.

Elektrische Kenndaten:

Electrical data:

230 Volt AC / 50 Hz – 235 W – Sicherung: 3 Amp. -mittelträge

(110 V bzw. 60 Hz auf Anfrage)

230 Volt AC / 50 Hz – 235 W – Fuse: 3 Amp. -semi time-lag

(110 V resp. 60 Hz upon request)

Länge:

Length:

790 mm (Auslaß/Netz-Anschluß + 30 mm)

(Fog outlet/powerconnection + 30 mm)

Breite:

Width:

360 mm

Höhe:

Height:

500 mm

Gewicht:

Weight:

27,9 kg

GEBLÄSE:

fan:

4-stufig regelbar – 4-steps adjustable

Zubehör:

Accessories:

3 m. Gummi-Netzkabel, Gebrauchsanweisung, Dichtring für Nebelgerät

3 m flexible power cord, instruction manual, foam seal to attach fog machine

Sonderzubehör:

Optional accessories:

Flexibler Restschall-Absorberschlauch Länge 1,4 m

flexible remaining sound absorbing tube, length 1,4 m

Nebel-Spiralschlauch, Durchmesser 60 mm, Länge 10 m

Fog ducting hose, 60 mm diameter, length 10 mtr.

Rollwagen zum Verfahren von Nebelgerät und NONPHON-Schalldämpfer

trolley for moving fog machine and silencer across the stage
